PROFILE

A highly motivated and detail-oriented Computer Science graduate with a strong foundation in software development and full stack web development. Skilled in building responsive and user-friendly web applications using modern technologies like HTML, CSS, JavaScript, React, Node.js, and MongoDB. Passionate about solving real-world problems through clean, efficient code.

EXPERIENCE

Full Stack web Application – "Animal Rescues"
Jan 2024- Aug 2024

- The website was developed using HTML, CSS, and C# programming languages.
- Designed and developed a fully responsive website to support animal rescue operations, enabling users to adopt, donate, and report lost/found animals.
- Developed dynamic functionalities using **C#** (with ASP.NET, if used) to handle user registration, animal listings, and admin dashboard.
